About Me

Bachelor's degree in Computer Systems with interests and experience in Web Development, Artificial Intelligence (AI), Internet of Things (IoT), and UI/UX Design. Proficient in web application development using React JS, Vue JS, Tailwind CSS, PHP, Laravel, Node.js, and MySQL, as well as experience in AI research and IoT-based system development. Fast learner, adaptable, and able to work independently and under pressure.

Experiences

Research Assistant at IsysRG Research Group, Universitas Sriwijaya (July 2024 – July 2025)

- Participated in Artificial Intelligence (AI) research for ECG data-based health signal analysis.
- Conducting literature studies and data processing to support the development of deep learning models.
- Developing, training, and evaluating Long Short-Term Memory (LSTM) models.
- Analyze model performance and compile research results documentation.
- Collaborate with the research team in the implementation and development of research.

Front End Development Member – Google Developer Student Clubs (GDSC) UNSRI

(November 2023 – August 2024)

- Participated in a Front-End Web Development program through learning activities and community projects.
- Developed web development skills using HTML, CSS, JavaScript, Tailwind CSS, and React JS.
- Collaborated with members from various divisions in community activities and self-development initiatives.
- Contributed to the organization of seminars, workshops, and other technology-related events.
- Supported the implementation of community programs to enhance members' learning experiences.

Teaching Assistant – Web Programming Course, MDP University

(February 2023 – June 2023)

- Assisted lecturers in conducting Web Programming lectures and laboratory sessions.
- Guided students in developing web applications using HTML, CSS, JavaScript, and Vue JS.
- Provided technical support and helped resolve issues encountered by students during the learning process.
- Evaluated assignments and practical work to support the assessment of student learning outcomes.
- Contributed to improving students' understanding of web development concepts and practices.

Educations

• Sriwijaya University (2023 - 2025)

Bachelor's Degree in Computer Systems - GPA: 4.00

• Sriwijaya University (2018 - 2022)

Associate Degree in Computer Engineering - GPA: 3.46

Sertifications

PHP Programming – Progate

(January 2025)

- Learned PHP fundamentals and Object-Oriented Programming (OOP).
- Developed a food ordering website project to apply the knowledge gained from the training.

Learn DevOps – Dicoding

(November 2024)

- Learned fundamental DevOps concepts, culture, and best practices in software development.
- Understood CI/CD concepts and their role in modern software development.

Learn to Build Back-End Applications – Dicoding

(September 2024)

- Learned back-end development using Node.js and Hapi JS.
- Built RESTful APIs and performed deployment and API testing.
- Developed the Bookshelf API project as a final implementation.

MikroTik Certified Network Associate (MTCNA) – MikroTik

(July 2024)

- Certified in MikroTik network configuration and routing fundamentals.
- Demonstrated skills in MikroTik device management and network troubleshooting.

UX Design – Dicoding

(November 2023)

- Learned UX Research, User Persona, and User Journey Map development.
- Created wireframes and prototypes using user-centered design principles.
- Conducted usability testing to evaluate and improve design solutions.

Skills

Hard Skills

- Pengembangan Web: HTML, CSS, JavaScript, NodeJS, React JS, Vue JS, Tailwind, Bootstrap, PHP, Python, Laravel, RESTful API
- Database: MySQL
- DevOps: CI/CD, Docker, Git
- UI/UX Design: Figma
- Artificial Intelligence: Machine Learning, Deep Learning, Data Preprocessing
- Internet of Things: Microcontroller, Sensor Integration, IoT Monitoring Systems
- Networking: MikroTik RouterOS, Routing, Network Configuration

Soft Skills

- Strong Communication Skills
- Teamwork and Collaboration
- Analytical Thinking
- Problem-Solving
- Creativity in Design and Development
- Adaptability to Technological Changes
- Fast Learning Ability
- Leadership in Collaborative Projects
